Error Code 11004

Hello. We have a problem with our iOS app, which is using the built-in iOS 7 (and above). Getting dc every 15 minutes of gameplay anyone knows how to solve it? Never had this error message before lol anyone got a clue about it? Also, when loading it 9/10 times the Nexon loader thing will pop up load up and then pop off. When i try to press play i get "error code 11004 (the requested name was valid but no data of the requested type was found). i've redownloaded it a couple times. When i go to the launchpad and try to log in it says error code 11004 no data. i do the steps to fix it and it usually works the step people seem to do.. I really dont understand, why when i play H1Z1 there comes error 1104. I really dont know what to do, please anyone help, i have just buyed the game and want.
